Extrait de la charte de déontologie spéléologique de la FFS

J'informe la communauté spéléologique de mes découvertes en rendant publics les résultats de mes recherches et explorations.

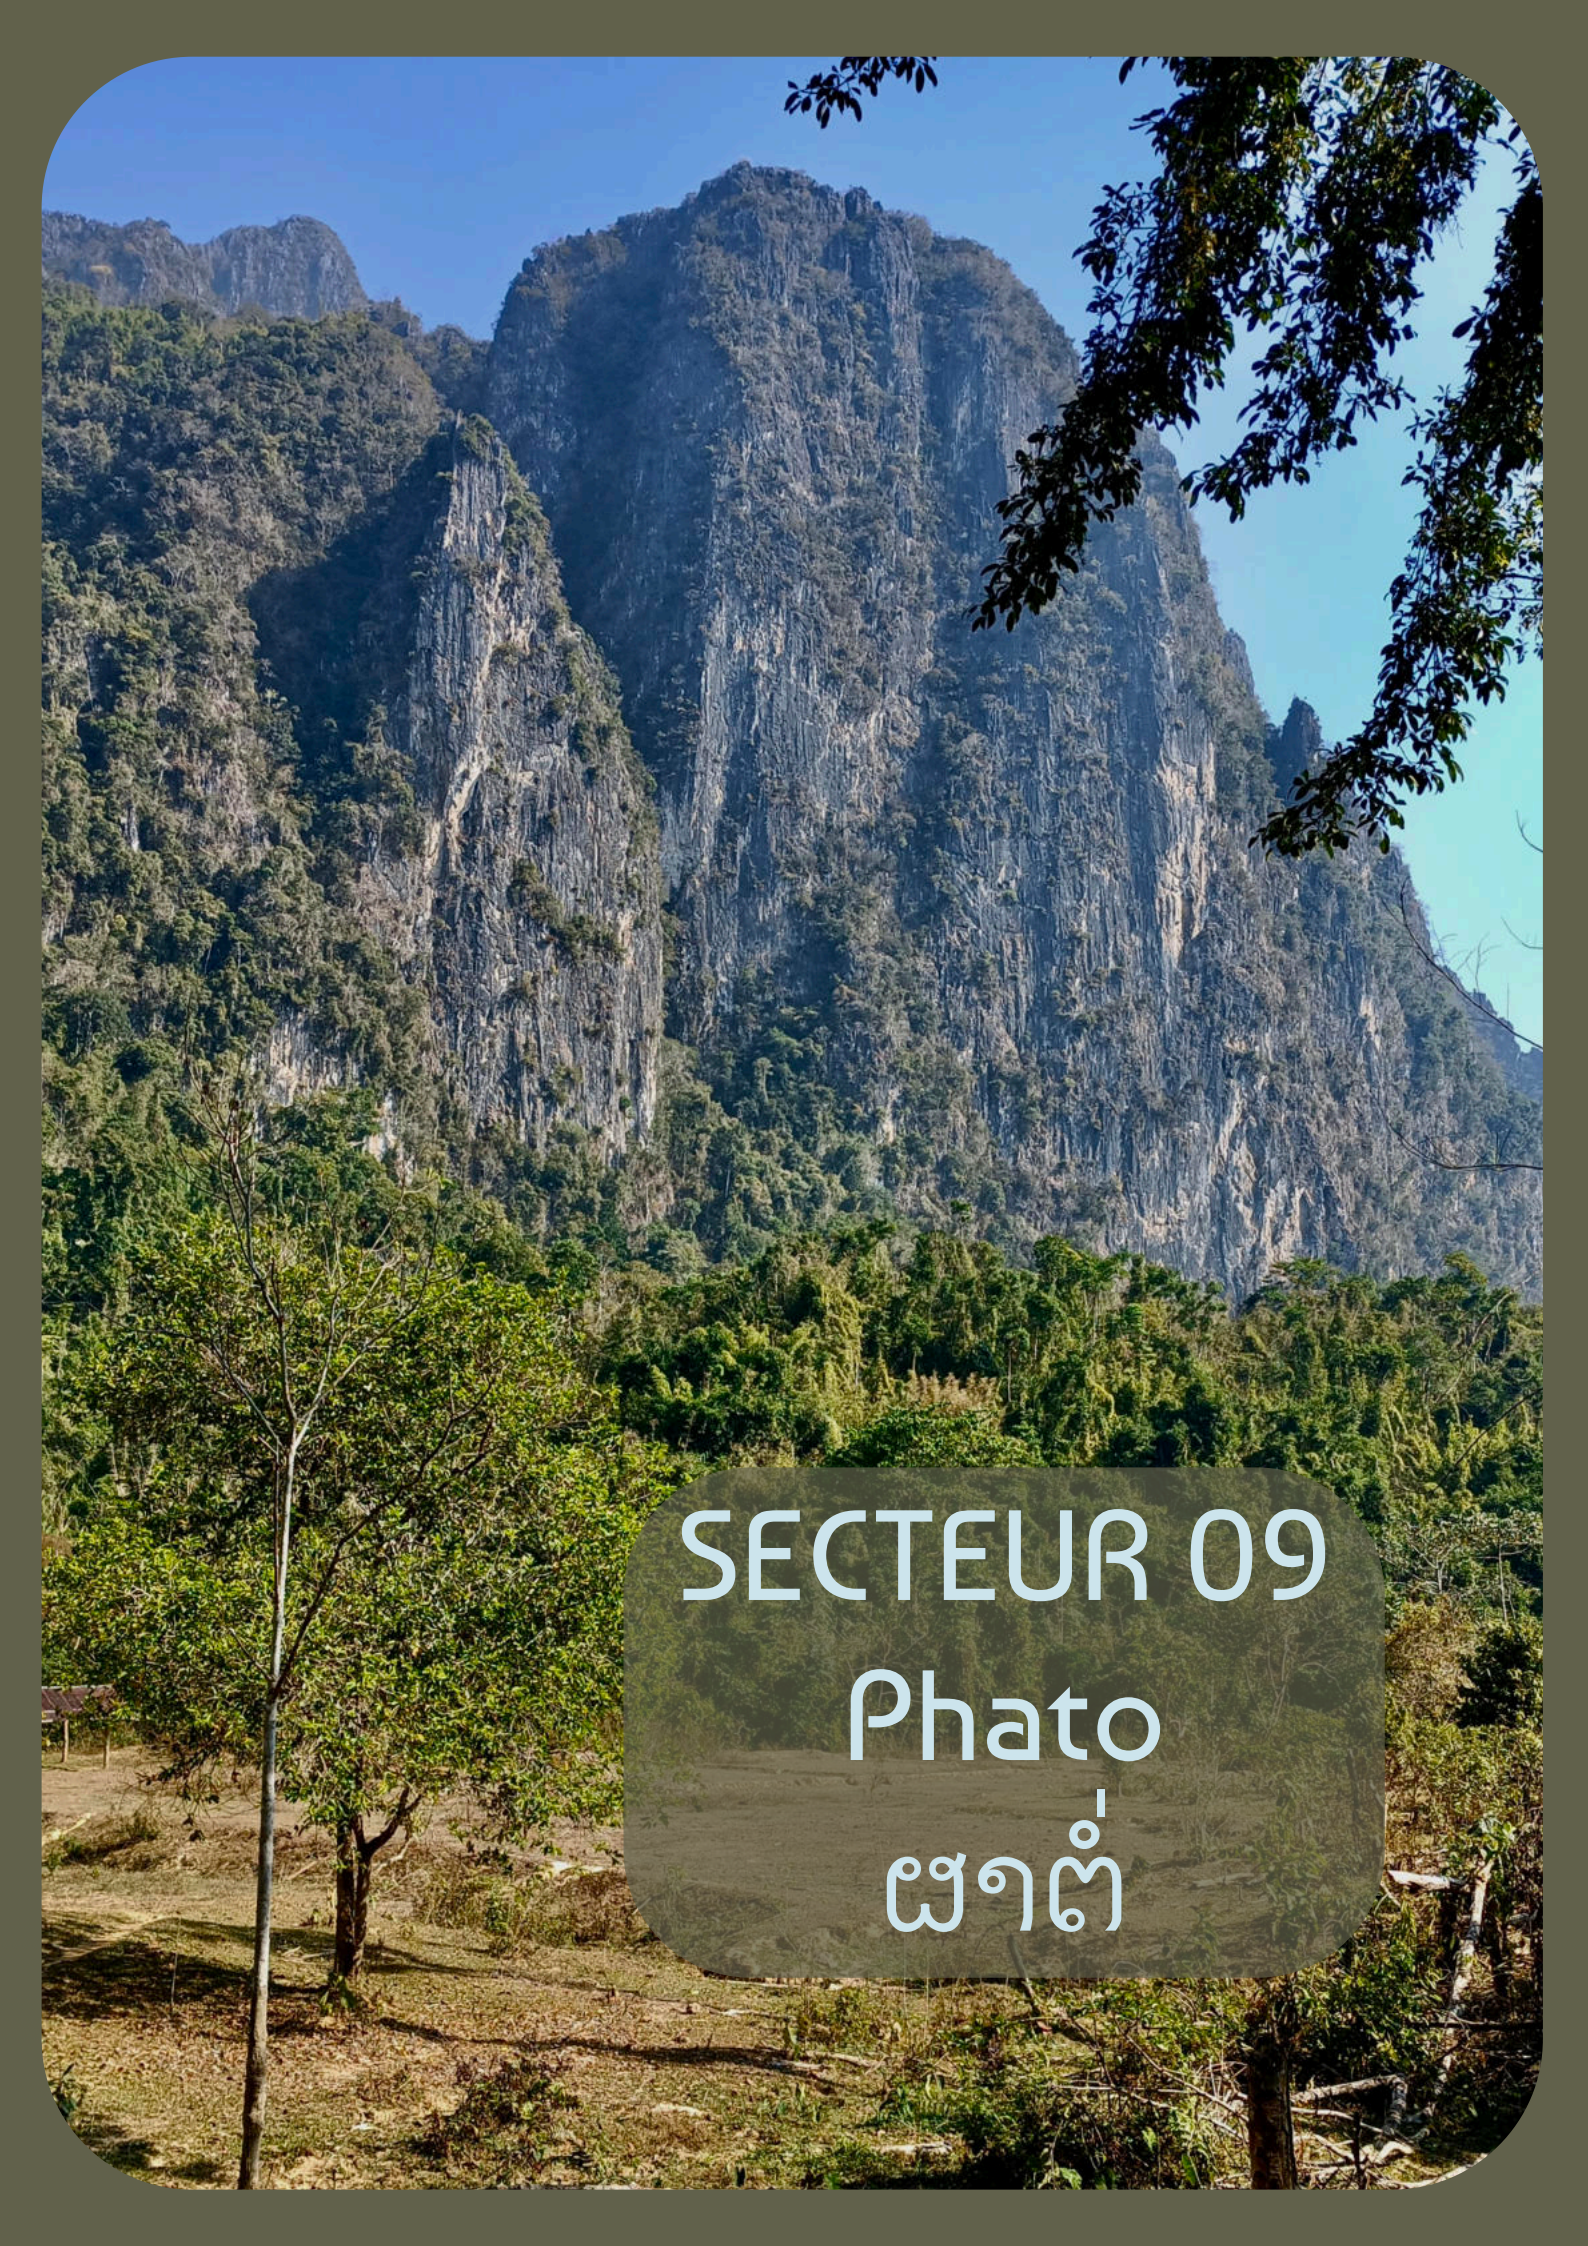

Je respecte les travaux des autres spéléologues et notamment l'antériorité des découvertes et des travaux en cours ainsi que la propriété morale et intellectuelle des topographies et publications.

Excerpt from the FFS speleological code of ethics

I will inform the caving community of my discoveries by making the results of my research and explorations public.

I will respect the work of other cavers by verifying whether any work has been/is being carried out in the area to avoid interfering with ongoing projects and to be able to give credit for previous discoveries, explorations, topographies and publications in my expedition reports.

Profile (Azimut 265°/ Inclinaison 0°)

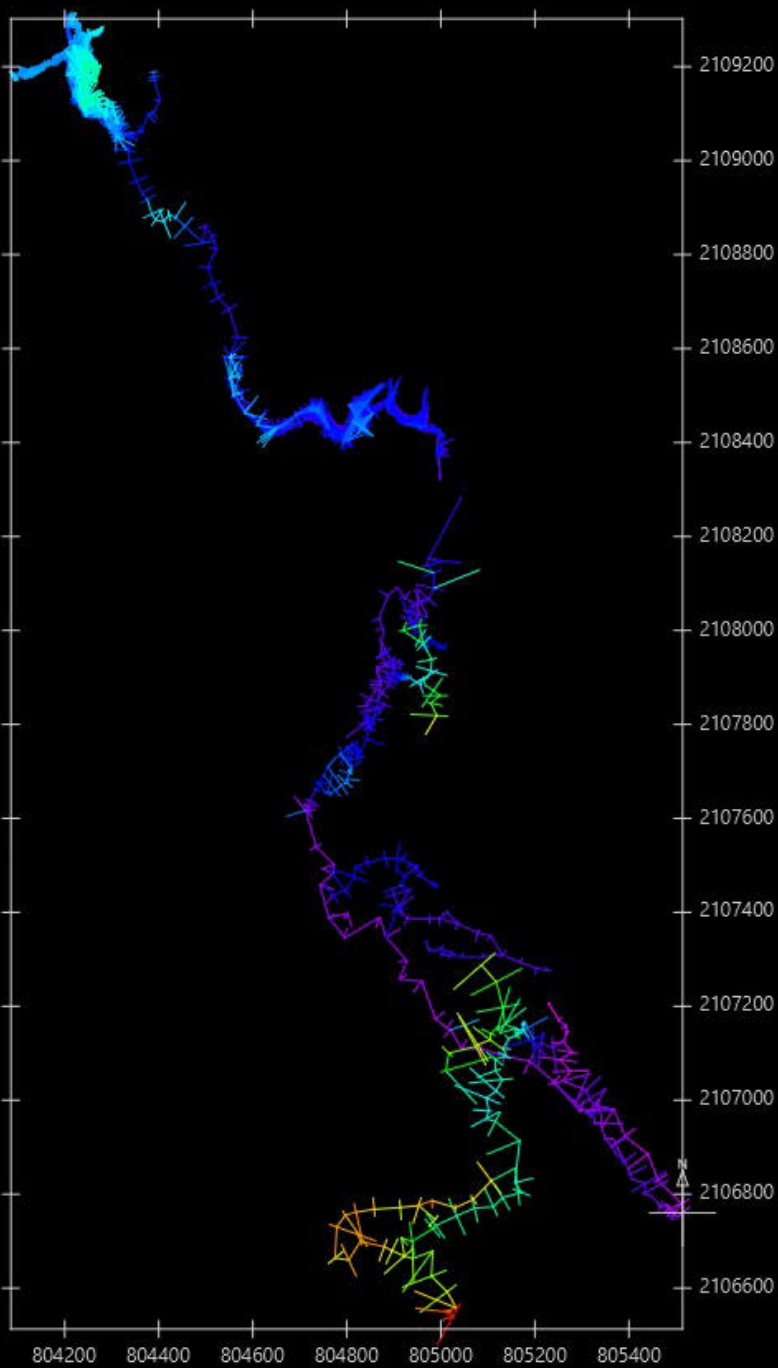

A photograph of two hikers with large backpacks crossing a shallow river. The hiker in the foreground is wearing a red cap and dark shorts, while the one behind is wearing a blue backpack and light-colored pants. They are surrounded by dense tropical vegetation and a large, steep limestone cliff in the background. A large, fallen tree trunk is visible on the right bank.
